VT, KVT, VTLF SERIES OIL-FREE VACUUM PUMPS

Becker 100% Oil-Free Rotary Carbon Vane Vacuum Pumps

Becker oil-free vacuum pumps are designed to operate on a continuous duty basis at any vacuum level from open flow to 27" Hg., depending on the series. All Becker oil-free pumps utilize self-lubricating, graphite composite vanes, specifically engineered for Becker pumps. No oil to change and only minimal maintenance is required. Each pump comes with a built-in inlet filter, vacuum relief valve and vibration isolators as standard equipment.
