

*Best in Class*

EXCLUSIVELY FROM BECKER  
**BECKER GENUINE  
VANES**

## Avoid Premature Pump Failure

Becker has been manufacturing pumps for over 130 years which means no one knows our pumps better than we do. **Becker Genuine Vanes are engineered specifically for the operating characteristics of a Becker Pump.** Counterfeit vanes are not. If you use cheap counterfeit vanes in your Becker pump, are you really saving money in the long run?

## You Get What You Pay For!

### WHY YOU SHOULD USE BECKER GENUINE VANES

- **Becker Genuine Vanes are designed to withstand the HEAT generated by a Becker pump.**  
*Counterfeit vanes cannot dissipate heat which causes premature wear, cupping and chipping.*
- **Becker Genuine Vanes are designed to withstand the FRICTION generated by a Becker pump.**  
*Counterfeit vanes don't have the proper binding resin that minimizes friction and vane breakage.*
- **Becker Genuine Vanes are designed and SIZED to fit precisely into a Becker pump.**  
*Counterfeit vanes don't always fit and won't slide uniformly from the slot which increases heat levels causing severe rotor damage.*
- **Becker Genuine Vanes are designed with the exact HARDNESS necessary to prevent cylinder washboarding.**  
*Counterfeit vanes are too hard and cause cylinder washboarding resulting in uneven vane rotation and vane breakage.*

### RESULT WHEN YOU DON'T

**Are you really saving money buying cheap counterfeit vanes?**
