BECKER VACUUM SYSTEMS SURGERY CENTER

Becker Surgery Center Vacuum Systems

No Maintenance Department • No Maintenance Supervisor • No Problem

Becker Pumps is the **most trusted name** in the medical/surgical community. We know that most surgery centers don't have a maintenance department or even a dedicated maintenance supervisor. That's why our **oil-free, low maintenance vacuum systems** are **ideal for all surgery centers**.

Becker Pumps offers a full-range of vacuum systems to support the specific needs for every type of ambulatory surgery center, large or small. We are also proud to offer our nationwide network of Authorized Repair Centers for Genuine Becker replacement pumps, parts and service, throughout the United States.

Becker Oil-Free Rotary Vane Vacuum Systems

- 2 YEAR All Inclusive Warranty
- NO OIL to Change
- 1 Hour Maintenance
- Long life carbon vanes
- Automatic Pump Alternation*
- Easy Installation
- One Inlet and One Electrical Connection
- Compact Design
- Vertical or Horizontal Configuration

Every Becker Pumps system meets NFPA-99 specifications and includes all inlet check valves, isolation valves, inlet filters, flexible connectors, vibration isolators and electrical control panel. All duplex systems employ computer controlled automatic alternating controls. Expandable models are also available for larger surgery centers. For high elevation installations, we offer all of our systems with oil-flooded pumps.

**Not applicable on simplex systems.*
