MEDICAL/SURGICAL & LABORATORY CENTRAL VACUUM SYSTEMS

Advantage-D/X System

Advantage-C

Hook and Claw Technology Central Vacuum Systems

The Advantage-C version offers Oil-less and Touch-less vacuum pumps with vacuum levels up to 28" Hg.

Advantage-CW

Hook and Claw Waste Anesthetic Gas Disposal Vacuum Systems

The Advantage-CW version offers Oil-less and Touch-less vacuum pumps for dedicated Waste Anesthetic Gas Disposal systems with vacuum levels up to 28" Hg.

Advantage-D

Dry Central Vacuum Systems

The Advantage-D version offers our superior dry running long life carbon vanes for low maintenance and no oil discharge.

Advantage-X

Extended-Life Dry Central Vacuum Systems

The Advantage-X version offers an extended life dry vane pump with 20,000 hour vane life. These vanes are exclusive to Becker pumps and insure low cost maintenance.

Advantage-L

Lubricated Central Vacuum Systems

The Advantage-L version offers our oil-lubricated rotary vane pumps for deep draw vacuum up to 29.9" Hg.

Advantage-P

Lubricated Auto-Purge Laboratory Central Vacuum Systems

The Advantage-P version offers our automatic purge systems which are specifically designed for laboratory applications. The purge system cleanses the pump of ingested gases and chemicals to extend the life of the oil while increasing pump life.

Advantage-S

Space Saver Vacuum Systems

The Advantage-S Space Saver Vacuum Systems offer a compact footprint for installations where space is limited. Included are models 100 through 300 in Simplex and Duplex configuration for all system types Becker offers.

Becker offers the only 3-year warranty in the industry on ALL of our systems

Features & Benefits

- All Medical Systems NFPA 99 Compliant
- Air Cooled – No Water
- Compact
- Convenient Service Points – Low Maintenance
- Modular Design Makes Expandable Systems Available up to Sextuplex Configuration
- PLC Controlled with Timed Alteration
- Quiet
- Remote Alarm Relays
- Single Point Connections for Vacuum, Electrical & Discharge
- Vibration Free
- Touch Screen:
 - Alarm Log
 - Maintenance Reminders
 - Vacuum Level Bar Graph with Set Points
 - Pump Status Indicator
 - Remote Monitoring

Options

- Bypass Piping
- Discharge Manifold
- Tank Drain Assembly

Advantage-L/P System

Model Specifications

These charts display all of the Becker models that are currently available and their specifications. The flow is in SCFM and is shown at three separate vacuum levels: 0" Hg for open flow; 19" Hg for medical applications; and 25" Hg for laboratory applications.

* Except for Simplex Systems, data is for an NFPA 99 Level 1 system, which requires a reserve pump; thus, performance in this table is for the total number of pumps in the system, minus 1 (i.e., a Triplex TE100D would be designed for 2 pumps with a total flow of 44.2 SCFM at 19" Hg and total HP of 10. The reserve pump produces 22.1 SCFM using a 5 HP motor and is not included in the tables presented on this page).

** These dimensions are for estimates of the overall system envelope and should not be depended on for installation details. The dimensions are subject to change without notice. **Contact the factory for certified dimensional drawings.**

Pentaplex and Sextuplex Systems are available as a factory standard design—contact the factory. Custom designed systems also available.

Becker Pumps Corp. reserves the right to alter data without notice.

Advantage-D/X System

MAKE IT BECKER.

Becker has been building Medical/Surgical and Laboratory Systems in the U.S.A. for over 3 decades. And for more than 130 years, Becker has been building the highest quality vacuum pumps in the world. So it makes sense that **Becker systems with Becker pumps** are the most reliable and efficient systems in the world. With many types to choose from, whether medical, surgical or laboratory, lubricated or dry running, expandable or tank mounted, Becker has the right system for your application.

Reliable & Efficient Vacuum Pumps & Systems

- Quiet running
- Tank mounted models (vertical and horizontal)
- Expandable models (up to six pumps)
- Easy Installation
 - One electrical connection
 - One inlet connection
 - One discharge connection
 - Most fit through any 36" door
- Field serviceable, easy to maintain
- Auto Purge for Laboratory systems

X-Series Extended
Life Dry Vane Pump

Experienced & Personal Customer Service

- Phone calls always answered by a "live" person
- Experienced technical support
- Knowledgeable inside sales and customer service
- Fast turnaround time
- Factory trained in-house repair service
- Offer only Becker Genuine replacement parts
- Large inventory of pumps and parts with same day shipping available

At Becker Pumps Corp., we understand that breakdowns are costly due to lost production and maintenance downtime. We solve both of these problems and that's why we're recognized as the best vacuum pump solution in all the world.
