PHASE CONVERTER

Convert Single Phase Power to Three Phase Power Utilizing the New Becker Phase Converter

Becker now offers a simple and cost effective way to convert your 230 volt single phase power to 230 volt three phase power.

Just by using the Phase Converter, you can install our larger three phase Becker vacuum and pressure pumps and run them on single phase power without incurring the cost of an expensive single phase motor!

Not only can you **increase your efficiency**, but you can **reduce maintenance costs** too by using one large pump running on single phase power to replace many small pumps.

Phase Converter

Features & Benefits

- Converts 230V Single Phase to 230V Three Phase
- Handles up to a 10 HP Motor
- NEMA enclosures available for outdoor installation or any harsh environment

Can Also Be Used As:
