

SECONDARY PACKAGING

A Becker pump can be found on virtually every type of packaging equipment, in almost every type of packaging environment. From [package inception](#) to [package shipment](#), Becker is involved every step of the way. No matter what equipment you have, Becker has the pump solution for you.

MAKE IT BECKER.

**REGENERATIVE
BLOWERS**

CLAW PUMPS

**DRY-RUNNING ROTARY
VANE PUMPS**

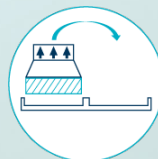

EQUIPMENT

Becker vacuum pumps can be found in almost every kind of [packaging environment](#) and on most common types of [packaging equipment](#) and [machinery](#).

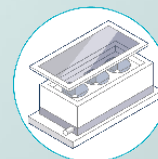

- Tray Formers
- Cartoners
- Carton and Case Packers
- Corrugated Box Erectors
- Palletizers
- Baggers
- Blister Pack and Clam Shell
- Cardboard Box Handling
- Cappers and Fillers
- Weighers and Sorters
- Inserters
- Material Handling

APPLICATIONS

The #1 Choice for Oil-Less Vacuum Pumps in the Secondary Packaging Industry. Highest Reliability at the [Lowest Operating Cost](#).

Pick & Place

Thermoforming

Evacuating

REGENERATIVE BLOWERS

A perfect fit for your individual operating conditions and special application: The Becker side channel blower is the **custom-designed** solution that fulfils your requirements.

Single Stage	SV 130/1	SV 201/1	SV 300/1	SV 400/1	SV 500/1	SV 700/1	SV 1100/1
SCFM	94	135	229	276	359	529	735
"HgV	8	6.8	9.1	10.2	10.9	10	9.6
HP	2.4	3.6	6.4	8.9	12.1	17.7	24.1

Double Stage	SV 130/2	SV 201/2	SV 300/2	SV 400/2	SV 500/2	SV 700/2	SV 1100/2
SCFM	50	64	111	138	179	256	356
"HgV	10.3	11.8	12.1	13.2	11.8	11.8	11.5
HP	1.7	2.4	4.8	6.4	8.9	12.1	17.7

CLAW VACUUM

The BCV series vacuum pump is a dual-shaft, **dry and contactless compressing claw pump** series designed to meet the needs of demanding industrial environments. Its **integrated filtration** with a particular **high capacity** builds a unique feature not seen in other claw pumps.

Model	BCV 100	BCV 150	BCV 300
SCFM	71	106	191
"HgV	28.1	26.6	25.1
HP	4	5.4	10.1

OIL-FREE ROTARY VANE VACUUM

Becker's VT and VX Series dry-running rotary vane pump's straightforward construction with **single shaft direct drive** makes for a robust, long-life rotary vane pump with **low operation and maintenance costs**.

Model	VT 4.4	VT 4.8	VT 4.10 VX 4.10	VT 4.16 VX 4.16	VT 4.25 VX 4.25	VT 4.40 VX 4.40
SCFM	2.8	5.4	7.1	11	18	28
"HgV	25.1	25.1	25.1 ¹⁾	25.1 ¹⁾	25.1 ¹⁾	25.1 ¹⁾
HP	0.28	0.59	0.6	0.94	1.2	2

¹⁾ VX 4.10 – VX 4.40 27"HgVG

The VT and VX Series set the benchmark in various industrial applications, establishing the VT/VX dry-running rotary vane pumps as unmatched in the competition.
